Ichthyological notes

These short communications, which do not occupy more than four printed pages (16,000 characters).

If they concern a record, they must include:

- (a) a localization map of the capture(s) with indication of the current known distribution (maximum width: 8.5 cm);
 - (b) a good photo of the specimen;
 - (c) the registration number in a national or recognized collection (tissue and CO1 sequence or specimen);
 - (d) the main morphometric and meristic characters that allow the identification of the specimen;
 - (e) a few words about the interest of the finding. The bibliography should not exceed 10 references.
- Records without collection specimen cannot be published as a scientific paper in Cybium, but they can be presented in the Rubrik "First records".*

Please follow the following guide and *Instruction to authors*.
